Introduction:

Industrial waste Management (IWM) constitutes a serious problem in many third world Cities. Most cities do not collect the totality of wastes generated, and of the wastes collected, only a fraction receives proper disposal. The insufficient collection and inappropriate disposal of Industrial wastes represent a source of water, land and air pollution, and pose risks to human health and the environment. Over the next several decades, globalization, rapid urbanization and economic growth in the developing Metro Politian Cities tend to further deteriorate this situation.

The present Two day workshop deals with various topics related with Industrial waste such as its Types, Methods, Handling, Transportation, Collection, Treatment of waste. Also the Programme highlights the advantages and disadvantages of recycling, reusing of land filling, incineration process, composting, and transportation and also keys to reduce it etc.

Objective of the workshop:

The main objective of workshop is to sensitize the Stakeholders on various management issues like source, Industrial waste collection, handling of waste, storage, transportation, processing and disposal of Industrial Waste.

Also the workshop is aimed

- To understand and address the Existing Environmental Problems.
- To familiarize the rules and regulations of Industrial Waste Management and their Impact.
- To Create Public Awareness on Industrial Waste Management.
- To increase the involvement of people and private sector to improve the efficiency of Industrial Waste Management.
- To Encourage NGOs, Mass Media, Local Body Representatives and other Stakeholders about Environmental Issues related to Industrial Waste.
- To Aware people about the Management of Industrial waste.
- To reduce and detoxifying of the Industrial Waste to the Maximum Feasible Extent.

Coverage:

Widely used standardized best topics highlighting the Management Aspects of Industrial Waste in India to achieve Greater Participation of all individuals and to Provide a common Platform for Greater Interaction and Exchange of Ideas will be followed.

Out Come of the Workshop:

The Programme is aimed to create awareness among the Public and Responsible Stakeholders for

- Better coordination amongst the all response and regulatory agencies.
- More development of community participation.
- Better understanding of process and procedures to the industrial sector in the task of Waste Management.
- Better disposal of Industrial waste among various industrial Communities.
- Better use best management process.

Resource Persons:

- ❖ Environmental Experts from Governmental Organizations and Industries.
- ❖ Eminent persons from reputed Consultancy agencies.
- ❖ Senior Academicians from reputed Universities

Dates: 29-11-2018 & 30-11-2018.

Time: 9.30 am. to 5.30 pm.

ni-msme - the premier institute

National Institute for Micro, Small and Medium Enterprises (ni-msme) (Formerly known as National Institute of Small Industry Extension Training (nisiet) is a pioneering institute in the field of MSMEs, playing a major role in providing a pro-business environment to foster the progress of SMEs towards success and prosperity. The raison detre of this institute is to assist the Government in formulating policies for small industries and to help practicing and potential entrepreneurs through a host of services like research, consultancy, information, training, education and extension. ni-msme is a training ground for senior technocrats, bureaucrats and bankers who come here to gain expertise and knowledge in order to equip themselves with latest technology and streamline their operations.

Set up in 1960, the Institute has made valuable contribution by creating an impressive record of achievements reaching beyond the Indian Shores, enabling other developing countries to take advantage of its facilities. Its activities are constantly evolving to suit the emerging needs of enterprises in the context of globalisation.

The Institute disseminates information through its Small Enterprises National Documentation Centre (SENDOC) that shapes a successful entrepreneur, who is well versed in the intricacies of business and can participate in business activities intelligently and diligently.

The Institute has made many significant contributions towards enterprise promotion both nationally and internationally Orientation Programme on Management, Monitoring & Implementation of MSE-CDP, Sponsored by the Directorate of Micro, Small and Medium Enterprises, Govt. of West Bengal (2015). The Institute has contributed several research and consultancy services in MSME area, apart from training.

Induction Training Programme for Environmental Engineers of APIIC Ltd, Govt. of Andhra Pradesh (2014), Marketing and Branding of Clusters for KVIC Officers, Sponsored by KVIC, Govt. of India (2014), Workshops, Sponsored by DSIR, Ministry of Science & Technology, Govt. of India (2014), IPR Challenges & Prospects, Sponsored by DC (MSME), Ministry of MSME, Govt. of India (2015).

The management of the Institute rests with the Governing Council appointed by the Government of India. The governing body acts through the resident Director. The present Director is **Dr.Sanjeev Chaturvedi.**
